

Republic of the Philippines  
**POLYTECHNIC UNIVERSITY OF THE PHILIPPINES**  
**MULANAY CAMPUS**  
Mulanay, Quezon

**College of Business**  
Name of College

**Bachelor of Science in Entrepreneurship**  
Course/Department

**1.0 Course Title: INTRODUCTION TO INFORMATION COMMUNICATION TECHNOLOGY WITH LABORATORY**

**2.0 Course Code: COMP 1153**

**3.0 Course Credit: 3 units**

**4.0 Course Description**

This course covers introduction to information communication technology concepts to non-CCMIT students who have no or little background on IT. Upon completion of this course you should be able to intelligently discuss ICT with IT professionals, explore the computer using Operating System Software, produce your own document with Word Processing Software, create your own workbook using Electronic Spreadsheet Software, deliver your own presentation using Presentation Software and finally access and explore the World Wide Web using different online tools and services. You should also understand enough about inevitable technological change to help you plan for your success.

**5.0 Pre-requisites Course/s: NONE**

**6.0 Vision and Mission Statements of the University**

**7.0 Goals of the College**

**8.0 Objectives of the Program**

**9.0 Course Objectives**

**General:**

- A. Encourage students to develop further as autonomous users of ICT.
- B. Acquired skills in developing business correspondence and personal document with the use of Microsoft Word.
- C. Prepare worksheet and utilize Microsoft Excel in the preparation of tables, graphs/charts, financial reports, budget preparations, perform mathematical calculations using formulas and functions.
- D. Enhance creativity in creating and delivering presentation using Microsoft PowerPoint.
- E. Expanding students understanding about various computer concepts, applications and uses as they relate to the workplace.
- F. Explore and apply a variety of methods used in the workplace to communicate information.
- G. Discover and use a variety of online tools and services available for accessing information online to solve a problem.

**Values Objectives:**

- A. Develop creative and independent learning strategy to further utilize the inputs and relate them necessarily to become productive future professionals.
- B. Develop a bank of information received from online sources to solve a problem.
- C. Analyze the social impact of electronic communications.
- D. Demonstrate a commitment to the ethical and legal use of online communications tools and services.
- E. Analyze information gathered online to solve a problem and discuss workplace implications and issues associated with the World Wide Web.
- F. Appreciate the use and importance of using Information Technology based instructional materials and develops oneself on how to become responsible citizen and information users.

**10.0 COURSE CONTENTS****MIDTERM PERIOD****10.1 COMPUTER SYSTEM (6 hrs)**

- 10.1.1 Introduction to Computers
- 10.1.2 Meaning, Characteristics, Capabilities and Limitations of Computer
- 10.1.3 Elements of Computer System/Computing Process
  - a. Hardware
    1. The System Unit
    2. Input Devices
    3. Output Devices
    4. Central Processing Unit
    5. Storage Devices
  - b. Software
    1. System Software
    2. Application Software
  - c. Data
  - d. People (Personnel)
  - e. Procedures – The language of Computers.
- 10.1.4 Classifications of Computers
  - a. According to Purpose
  - b. According to Types of Data Handled
  - c. According to Capacity
    1. Microcomputers
    2. Minicomputers
    3. Mainframe computers
    4. Supercomputers
- 10.1.5 History of Computing
- 10.1.6 Generations of Digital Computing
- 10.1.7 Application of Computers
  - a. Uses of Computers
  - b. Role of Computers in Education

**10.2 INFORMATION AND TECHNOLOGY (3 hrs)**

- 10.2.1 Meaning of Information and Technology
- 10.2.2 Information Technology
  - a. Meaning of IT
  - b. IT's Role in the Workplace
  - c. Value of Information and Information Services
  - d. Importance of Technology in Education
  - e. Impact of Technology in our daily lives

f. Advantages and Disadvantages of IT

10.2.3 Recent Trends in Information Science and Information Technology

**10.3 THE OPERATING SYSTEM (1.5 hrs.)**

10.3.1 Operating Systems Defined

10.3.2 Significance of Operating Systems

10.3.3 Functions of the Operating System

**10.4 WINDOWS OS CONCEPT (3 hrs.)**

10.4.1 The windows Desktop

10.4.2 Creating Folder/s, Moving, Copying Files and Folders

10.4.3 Hands-on Exercises

**10.5 WORD PROCESSING (12 hrs.)**

10.5.1 What is Word Processing

10.5.2 Word Processing Software

10.5.3 Features and Advantages of Microsoft Word.

a. Starting MS Word

b. Familiarizing MS Word Screen

10.5.4 Creating, Saving and Opening Files

10.5.5 Editing Commands

10.5.6 Formatting Commands

10.5.7 Inserting Tables

10.5.8 Using MS Word Templates

10.5.9 Printing Files

10.5.10 Application/Hands-on Exercises

**FINAL PERIOD**

**10.6 ELECTRONIC SPREADSHEET (10.5 hrs)**

10.6.1 Overview of Electronic Spreadsheet

10.6.2 Functions of MS Excel as an Electronic Spreadsheet

10.6.3 Excel Components / MS Excel Screen

10.6.4 Creating, Saving and Opening Workbooks

a. Creating a New Workbook

b. Entering Data in Worksheets

c. Editing Commands

d. Performing Calculations

e. Formatting Data Types

f. Creating Charts

g. Deleting Sheet, Rows, and Columns

h. Saving a Workbook

i. Closing and Opening a Workbook

j. Printing Spreadsheets

10.6.5 Application/Hands-on Exercises

**10.7 PRESENTATION SOFTWARE (9 hrs)**

10.7.1 Introduction / Presentation Basics

10.7.2 Basic Concepts and Operations

10.7.3 Using the AutoContent Wizard

10.7.4 Design Templates

10.7.5 Using Templates

10.7.6 Using a Blank Presentation

10.7.7 PowerPoint Views

10.7.8 Working with Text

10.7.9 Working with Slides

10.7.10 Graphics and Multimedia

10.7.11 The Slide Show / Delivering a Presentation

- 10.7.12 Managing the Show
  - a. Transitions
  - b. Animations
- 10.7.13 Saving Presentations
- 10.7.14 Printing Notes Pages and Handouts
- 10.7.15 Application/Hands-on Exercises

**10.8 THE INTERNET (9 hrs.)**

- 10.8.1 What is Internet
- 10.8.2 History of the Internet
- 10.8.3 World Wide Web
- 10.8.4 Netiquette
- 10.8.5 Browsers and Search Engines (Communications Applications)
- 10.8.6 Internet Services
  - a. E-Mail
  - b. Chat and Talk
  - c. Internet Phones
  - d. Newsgroup
  - e. Information Retrieval
  - f. Other Internet Services Available
- 10.8.7 Data Integrity, integration, Security and protection
- 10.8.8 The Internet Explorer
- 10.8.9 Searching Information on the Web

**11. COURSE REQUIREMENTS:**

- 11.1 Hands-on Activities/Exercises
- 11.2 Class Recitations
- 11.3 Assignments
- 11.4 Quizzes
- 11.5 Mid-Term and Final Examinations
- 11.6 Submission of reaction paper on articles about the latest in Information Communication Technology.
- 11.7 Completion of Project by using Online Resources

**12. EVALUATION TECHNIQUES:**

Delivery of oral reports, written and interactive quizzes and examinations, actual computer operation, hands-on exercises and web surfing.

**13. COURSE GRADING SYSTEM:**

Midterm and Final Term Examination	30%
Quizzes (Mostly Interactive)	25%
Individual Exercises/Hands-on	35%
Class Participation/ Attendance	10%
<b>TOTAL</b>	<b>100%</b>
<b>Final Rating</b>	
First Grading	50%
Second Grading	50%
	<b>100%</b>

**14. Suggested Teaching Methodologies/Strategies**

Lectures, discussion, oral reports, hands-on, develop and use interactive instructional materials.

## 15. Suggested Learning Activities

Hands-on using suitable activities/exercises, internet surfing, use Object Linking and Embedding (OLE) between MS Word, MS Excel and PowerPoint.
